

Have a Worm Race!

CUT on the solid lines
FOLD OVER the
dashed lines

GLUE matching shapes
together

ROLL the straw up
to use in creating an
airstream to propel
your worm to victory!

COLOR & NAME your
worm before the race
to know who wins

RACE by placing your
worms on a flat surface
like a table. Your
worm's back should be
puffed up in an arch.
Your worm will move
when you blow down
on its back through
your straws. Each puff
of air should make
your worm inch along.
Mark the end of the
race course or be the
first worm to wiggle
their way off the edge
of the table!
